

PRODUCT SOLUTIONS

Isle of Man business connections

Businesses need fast, secure and resilient access to systems and data, so our local experience of network design, coupled with the ability to connect you to anywhere in the world, means that we can deliver all the connectivity you require - whether that's a simple internet connection or a fully managed Wide Area Network spanning the globe.

Key features

Our commitment to you is continual investment in our infrastructure in order to deliver:

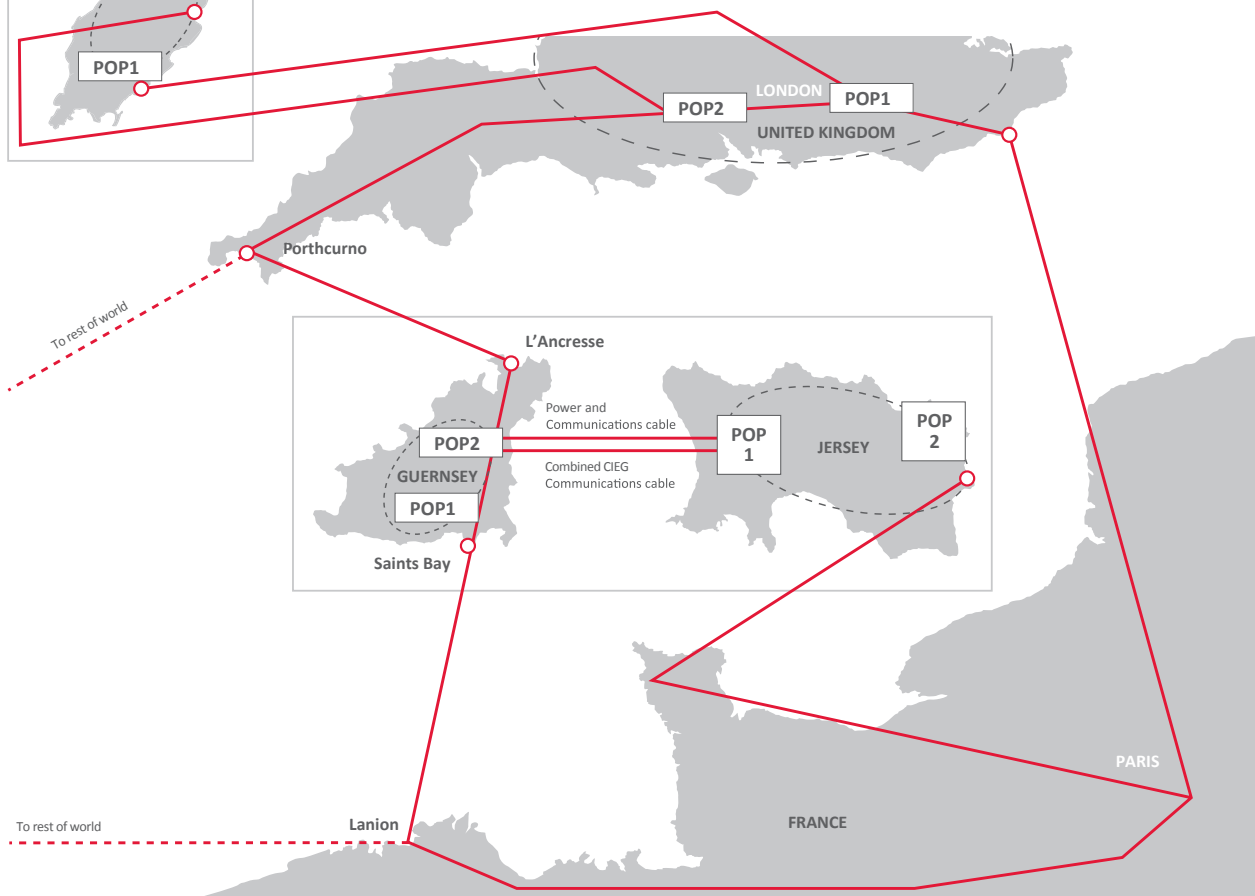

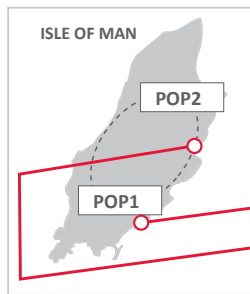

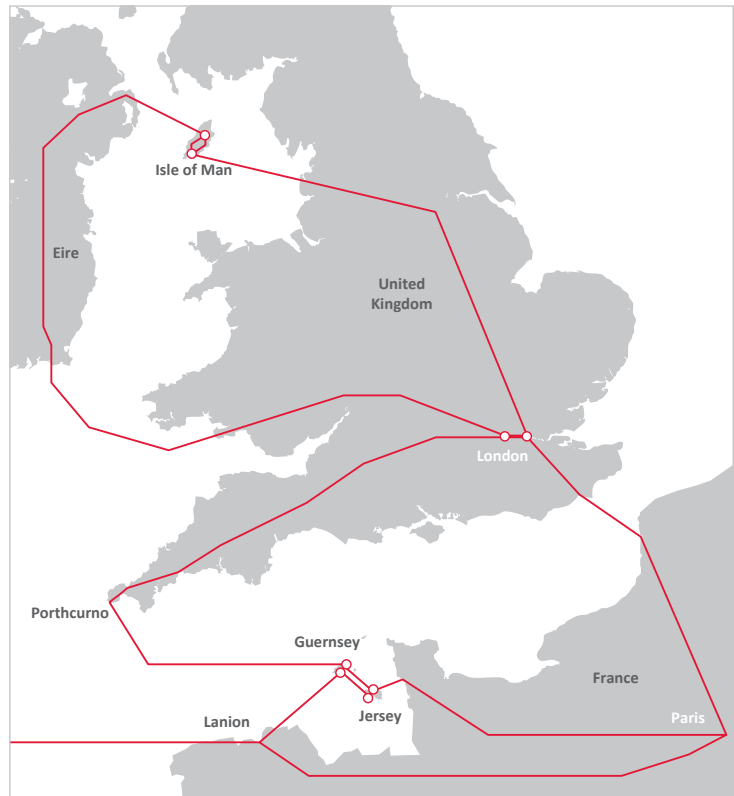

- Carrier class resilience, diversity and security, backed by demonstrable SLA's and 24x7 support
- Lower TCO (total cost of ownership) solutions for our customers
- Future proof solutions based on our scalable infrastructure
- Global reach over our own network
- More supplier choice and enhanced products for Isle of Man business customers

Isle of Man business connections

Our multi-million investment connects you to major international business centres throughout the world.

Our network and our partners' networks include investments in over 70 global cable systems and geo-stationary satellites, providing connectivity to 153 countries. Our network connects Isle of Man to the rest of the world via two separate and diverse cable systems, the first via the UK, and the second via the Republic of Ireland.

Isle of Man business connections

What this means to you as a customer:

- Carrier class resilience, reliability and diversity
- Connect to single or multiple branch offices, anywhere in the world
- Your solution will have inherent future scalability
- You will have access to multiple connectivity options including:
 - **Point to Point private circuits (Clear Channel & Ethernet)**
 - **Multi-Point Solutions (VPLS & MPLS)**
 - **Dedicated Internet Access**
 - **Broadband**
- Your service will be delivered over our high capacity resilient network
- Lower TCO, our pricing will always be competitive and offer best value for money

Further Product Detail

Off Island Ethernet Solutions:

- We are the only local provider to deliver Pan Island (Isle of Man, Jersey and Guernsey) services wholly on its own network
- Services are available in various bandwidth options from 2Mb upwards
- Point-to-Point and Multi-Point capability (VPLS & MPLS)
- Full QoS (Quality of Service) support (3 levels - Standard, Enhanced & Premium)
- Flexible and burstable product features
- Resilience using two diverse connections to your premises

Off Island Clear Channel Private Circuits:

- We are the only local provider to deliver Pan Island (Isle of Man, Jersey and Guernsey) services wholly on its own network
- Services are available in various bandwidth options: 2Mb, 34Mb, 45Mb, STM1, STM4 and STM16

Dedicated Internet Access:

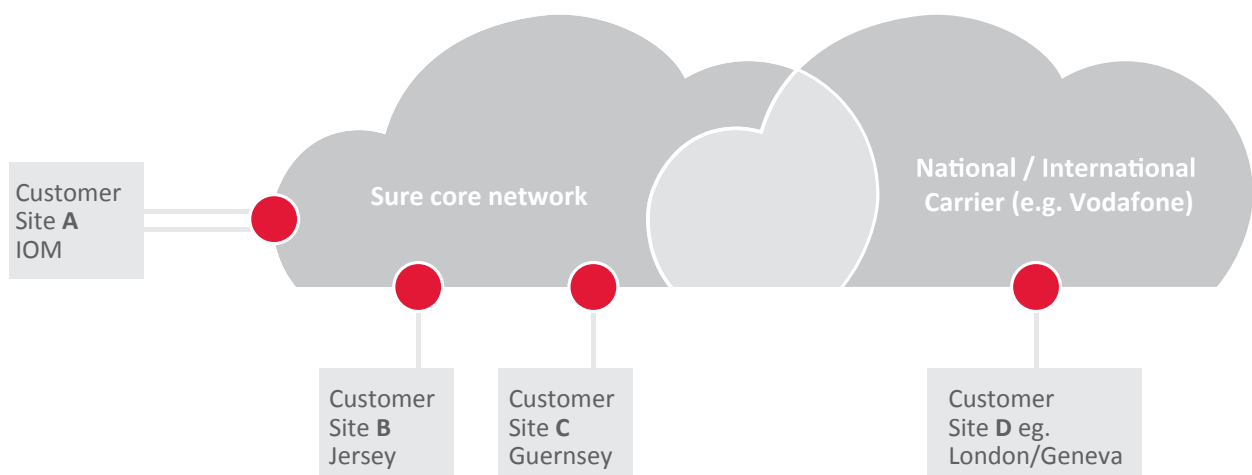

- Enterprise class, high capacity and resilient Internet (IP) feeds
- Services are available in various bandwidth options from 1Mb upwards
- Flexibility through burstable bandwidth options
- Provision of DDoS (Distributed Denial of Service) Protection

Broadband:

- Both ADSL and VDSL services for home and business use
- Bandwidth options from 16Mbps to 80Mbps
- Contention from 20:1 to 50:1
- Various IP addressing options
- Enhanced SLA available

Our Business Connectivity solutions enable you to:

- Mitigate risk by taking true carrier off island diversity on a completely separate network
- Add network level Quality of Service (QoS) for mission critical data
- Take fractional Ethernet services, should IOM standard Ethernet (10Mbps, 100Mbps or 1Gbps) be too much or not enough capacity
- Work with a true global supplier, providing end-to-end solutions locally and to anywhere else in the world
